Omaroo Room's Philosophy

In Omaroo, we have a specially designed learning environment for toddlers, offering a top-notch, innovative education program tailored to children's interests and developmental capabilities.

Our educators foster independence, curiosity, and lay the groundwork for lifelong learning. We cultivate a friendly, nurturing, and trustworthy setting that values and nurtures each child's unique needs, desires, and creativity.

With a daily limit of 20 children and skilled educators, we employ positive reinforcement for appropriate behaviour while maintaining open communication with parents/guardians to collaborate effectively.

EDUCATIONAL PROGRAM

PLAY BASED AND CHILD-DIRECTED CURRICULUM

In the Omaroo room, the educators focus on building the children's independence and confidence in their skills and abilities.

For the younger group, we focus on guiding them through improving their verbal skills and communication, as well as helping them hone their fine and gross motor skills.

For the older group getting ready to go into the kindergarten room, we, with the support of the families, start building their confidence in toilet training. We guide them to start listening to their body's cues and signals, recognising what it feels like when they need to use the toilet.
